

Hiawatha College Prep Kingfield

April 20- 24

A Message from the Principal

These are hard and challenging times for our students, city, country, and world. What continues to be in the forefront of our minds and hearts is the safety and well-being of our scholars. We miss them greatly and cannot wait to see them again.

We want to make sure that scholars continue to receive a quality education, feel supported in their work, and continue to feel connected to our school community. Everyday scholars have between 2-3 hours of online learning in google classroom. To help your student and monitor if they're completing their work, please watch this video on how to use google classroom.

<https://youtu.be/ZHCcg8RqIIE>.

Additionally students receive at least 1 check in with a teacher per week to support them both with academics and serve as an emotional support as well.

If you have questions or would like to connect, please reach out to me directly at mtoppin@hiawathaacademies.org or at 612.802,5521

Sincerely, Mr. Toppin

5th Grade Updates

Math: calculating the area of rectangles with fractional side lengths

Reading: Researching natural disasters

Science: learning about different species in ecosystems can struggle or thrive.

6th Grade Updates

Math: calculating area and volume of various shapes
